Administrative Secretary

Opheim: SPED Teacher

We are looking for a special education teacher. Opheim is located in northeastern Montana, just 10 miles south of the Canadian border. The main industry in our rural community is farming and ranching. Fork Peck Lake has excellent fishing, boating and camping facilities and is only one hour away. Our school has 10 teachers and 34 students K-12. Our small class sizes allow you to better individualize instruction, track student progress and develop positive relationships with the students. We graduate 100% of our students, and all past students have been successful in their post-secondary pursuits. We are progressive in our teaching and goals, and we take pride in educating our students. In addition, we have almost no discipline issues throughout the entire district. If you are looking for a school where you can grow in the teaching profession and truly make a difference, Opheim may be a perfect fit.

A person may apply by sending a resume, cover letter, references, copy of teaching license and college transcripts to: Opheim Public School, C/O Tony Warren, Superintendent, P.O. Box 108, Opheim, MT 59250
