

POSITION: SUMMER COMMUNITY SERVICE TRIP LEADER

LOCATIONS: Alaska, British Virgin Islands, Cambodia, Dominican Republic, Ecuador, Guadeloupe, Montana reservations, Nicaragua, Peru

TYPE OF POSITION: Seasonal

OVERVIEW

VISIONS offers summer programs for teens that focus on meaningful community service, cultural immersion and adventure. Co-ed groups of 16 - 25 teens and 4 - 6 leaders live and work together in the heart of a host community.

POSITION DESCRIPTION

Leaders attend 3- to 4-day training at VISIONS headquarters in Bozeman, Montana, before traveling with other members of their leader team to the program location. (Program locations are determined during the hiring process.) There is another week of on-site training before participants arrive for the program(s).

Leaders supervise and mentor teens during 12-day to 4-week programs. Some locations have back-to-back sessions with a few days of break in between. Team leaders work together to foster a safe, fun and positive experience that cultivates growth and global understanding for the participants. Leaders work with and supervise students in all aspects of the program: service projects, recreational activities, cross-cultural events, and even day to day chores such as cooking and cleaning. Leaders participate as much as oversee the program, but the first priority is creating a positive and productive experience for the participants.

This is a residential program, with leaders and teens living together in a community center, rented house, or similar place that we make home for the summer. We have long-term ties to the places we work, and thus are a part of the community and usually live in a local neighborhood. With that, professionalism, respectfulness and community interaction are a natural part of every day. Leaders work hard, but the work is incredibly fulfilling when it's the right fit. VISIONS leaders commit to a work attitude that is cooperative, positive, safety-conscious, and community-spirited.

QUALIFICATIONS

- Minimum age 22
- First Aid and CPR certified before the program begins
- Fluent or conversational-level Spanish / French for language immersion programs
- Background check (~ \$35), paid for by applicant, will be required of all trip leaders immediately upon job offer
- Additional qualifications that may bolster an application but are not required: carpentry, photography, advanced medical training (WFR, EMT, etc.)

SALARY/BENEFITS

Salary is commensurate with similar employment opportunities and experience, and varies depending on the program duration. Please email if you would like more details. Room, board, round-trip travel to/from program sites is provided by VISIONS. Transportation to training in Bozeman, Montana, is at the leader's expense.

EMPLOYMENT DATES

Full attendance at leader training is required, and training begins the morning of June 16 2018, in Bozeman. Employment duration ranges from 6-10 weeks depending on the program location.
