

# **Wireless Network Guidelines**

## **Per the Wireless Network Policy 500.6**

---

- 1.** Information Technology Services (ITS) is solely responsible for the security, support and management of the campus network.
- 2.** ITS is the only entity on campus authorized to deploy wireless access points. Any unauthorized equipment found connected to the campus network will be immediately disconnected.
- 3.** ITS will treat wireless access as a non-critical, non-priority service, except for devices owned, managed and maintained by the University of Montana Western.
- 4.** ITS will provide no support of personal wireless devices connected to the network.
