

**AT TKI CNC WE STRIVE FOR TOP OF THE LINE QUALITY, PERFORMANCE AND CUSTOMER SERVICE.** We take pride in our products and providing value for our customers. When you work here, you will have the opportunity to be part of a growing team focused on teamwork, dedication, and innovation.

Reporting directly to the owners, the **CNC MACHINIST** is responsible for setup, run, and troubleshoot CNC forming and cutting equipment. To be successful in this role, you will be familiar with standard machining concepts, practices, and procedures; possess expert machining knowledge and strong math skills; and demonstrate the ability to work at a fast pace while maintaining superior attention to details.

The CNC Machinist will also be responsible for inspecting parts to specifications and making adjustments, or tool changes as necessary to maintain quality specifications. Has knowledge of commonly-used concepts, practices and procedures within a particular field. Rely on instructions and pre-established guidelines to perform the functions of the job. Work under immediate supervision.

### **Responsibilities/Daily Tasks**

- Work in a fast-paced, high-speed environment, follow standardized work and adhere to safe work practices in a continuous improvement environment
- Perform necessary pre-operation activities to ensure proper equipment startup and operation on multiple pieces of equipment
- Operate/monitor multiple pieces of HAAS equipment during operation to ensure quality production
- Communicate with team members and support teams to ensure continuous production of the correct product at high quality levels with minimal wasted time and materials
- Assist with additional production duties such as packaging, welding, assisting customers as necessary
- Regular housekeeping and sanitation to ensure a tidy and professional work environment

### **Qualifications**

- 1-year prior experience as a Machine Operator in a manufacturing environment preferred
- Knowledge of Production Procedures using HAAS controllers
- Ability to Read Blueprints, Schematics and Manuals
- Analytical Skills
- Teamwork
- Work Independently and handle multiple tasks at a time
- Experience utilizing Fusion 360 for modeling a plus

### **Working Conditions**

Well lit; manufacturing environment with moderately loud noise levels.

Position frequently handles sharp cutting tools. Skin exposure to oils and cutting/grinding fluids with minimal exposure to fumes, dusts, mists.
