

DITCHRIDER

PONDERA COUNTY CANAL & RESERVOIR CO.

WANTED

★★ Work Outdoors ★ Help Farmers & Ranchers ★ Excellent Benefits ★★

During the irrigation season, a ditchrider controls and maintains canals & ditches with the goal of efficiently delivering water to local farms and ranches. Ditchriders serve the shareholders of the irrigation project by scheduling water flowrates, delivery times, and durations of use. The Ditchrider shall report to the Company Manager and will coordinate daily with other ditchriders in order to requisition appropriate flows, promote timely water delivery, and minimize waste. Typical duties include operating gates, checks, and turnouts; removal of debris; and weed control. Ditchriders are also responsible for tracking and recording daily water use and canal flow data.

During the off-season, ditchriders will report to the Company's Construction Foreman and be integrated into the maintenance crew. Typical off-season duties include: Shop, vehicle, and equipment repair; Precasting, forming, and pouring concrete irrigation structures; Ditch cleaning and repair; Snow plowing; Infrastructure construction; Weed control; and Shop maintenance.
