**Certificate for Post-Baccalaureate Education Students: Licensure Program**

The post-baccalaureate certificate program consists of seven (7) plans of study (listed below) available to post-baccalaureate students. Once a student successfully completes a selected plan of study, designed for a particular licensure area, UMW awards the post-baccalaureate certificate and makes a licensure recommendation in that area to the Montana Office of Public Instruction. UMW makes licensure recommendations to its post-baccalaureate students only in the areas of study for which it also offers either an education major, an education minor, or both.
