**University of Washington
Summer Health Professions Education Program (SHPEP)**

University of Washington Schools of Medicine, Dentistry & Public Health
Health 2024 Program Dates: June 17– July 26

Check shpep.org for 2024 Program Dates & Sites

SHPEP is a free 6 week summer enrichment program focused on improving access to information and resources for college students interested in the health professions. SHPEP’s goal is to strengthen the academic proficiency and career development of students underrepresented in the health professions and prepare them for a successful application and matriculation to health professions schools. The UW program is 4 weeks virtual and 2 weeks in person.

SHPEP Highlights at the University of Washington:

- **Travel costs, room and board and a \$1000 stipend are provided for all UW SHPEP participants + \$100 extra weekly food allowance**
- Pathway sessions directed towards exploration of the admissions process, and the development of an individualized education plan
- A 'Learning to Learn' curriculum designed to teach scholars how to approach STEM courses using best practices in learning through academic courses in biology, chemistry and population health
- Service Learning Projects with community organizations from development of a proposal and poster presentations
- Shadowing experiences with healthcare providers and public health researchers
- Clinical simulation experiences including Stop the Bleed
- Lectures from Health care leaders on SDH, Racism in Health, etc

SHPEP is a national program funded by the Robert Wood Johnson Foundation with direction and technical assistance provided by the Association of American Medical Colleges and the American Dental Education Association.
