Total number of teacher preparation programs:

18

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- Adjunct faculty supervising clinical experience
- Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience
- Supervised clinical experience

THIS PAGE INCLUDES:

- >> <u>Undergraduate Requirements</u>
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

- 1. Are there initial teacher certification programs at the undergraduate level?
 - Yes
 - No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Two or more races	21	4
No Race/Ethnicity Reported	10	3

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared

13.14	Teacher Education - English as a Second Language	
13.99	Education - Other Specify:	

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher	preparation	provider	grant d	degrees	upon	comp	letion	of its	programs?

• Yes

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already entered</u>).

CIP Code	Academic Major	Number Prepared
13.10	Teacher Education - Special Education	5

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach based on past hiring and recruitment trends.
• Yes No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes
No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. Yes
No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes
• No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
No Yes
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
No Yes

8. Describe your institution's most successful strategies in meeting the assurances listed above:

All secondary education and K-12 education students attain the equivalent of a double-major: a major in their content area, and a major in education. All elementary education and PK - Grade 3 students complete a carefully aligned content-background preparation in various subjects and complete a rigorous sequence of education courses. All education courses include integrated general education and special education content, to provide a strong foundation in both domains. All education courses contain integrated components related to meeting the needs of exceptional students and students who are learning English as a second language. Montana Western students complete a robust set of Field Experiences in a variety of settings. We are particularly proud of our emphasis on preparing teachers for the very small rural schools in Montana. We engage our candidates in multiple field experiences in P-12 schools prior to student teaching. We also engage our elementary education and PK - Grade 3 degree students in a campus-

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

- Yes
- No

2. Describe your goal.

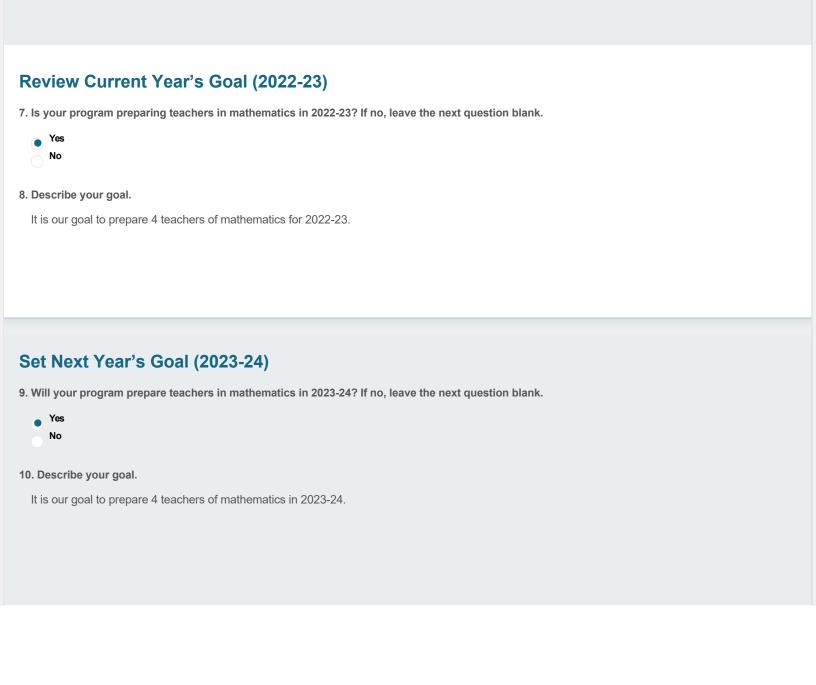

It is our goal to add 4 prospective teachers of mathematics for 2021-22. Our goals in previous years have been too ambitious, and at the time of this writing, the University still faces additional shortfalls in enrollment due to the effects of the COVID-19 pandemic.

- 3. Did your program meet the goal?
 - Yes
 - No
- 4. Description of strategies used to achieve goal, if applicable:

In 2021-22, we prepared 4 candidates to be mathematics education majors. One key strategy used to achieve this goal was to be highly proactive in advising the students who were seeking the mathematics secondary education degree, and ensure that they took their mathematics education methods course together, in addition to being informally "cohorted" in other classes, as well. This helped greatly with program coherence for these students, and it appears to have led to the outcomes we hoped to see in terms of degree completion.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

See above.

6. Provide any additional comments, exceptions and explanations below:

No additional comments or explanations.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in science in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

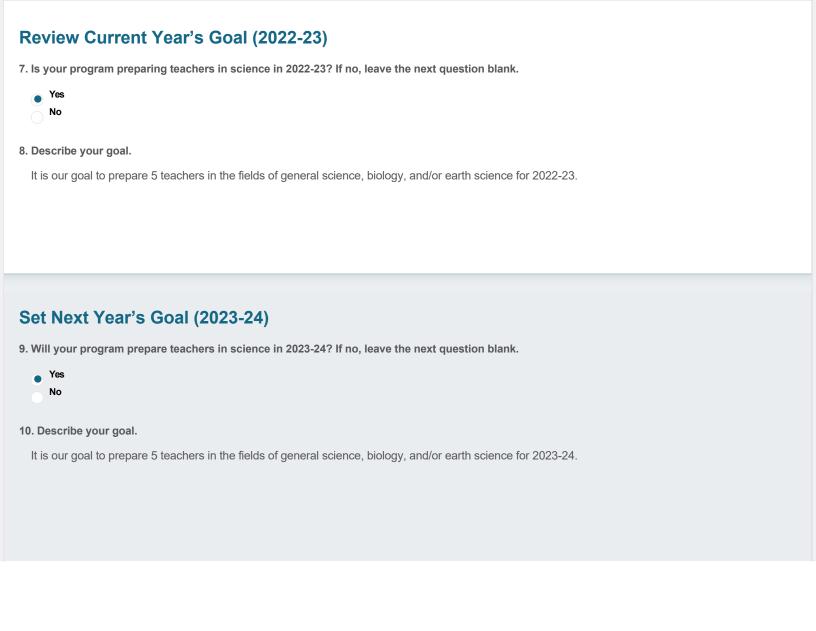

It was our goal to add 3 prospective teachers of science for 2021-22. Our goals in previous years have been too ambitious, and at the time of this writing, the University still faces additional shortfalls in enrollment due to the effects of the COVID-19 pandemic.

- 3. Did your program meet the goal?
 - Yes
 - No
- 4. Description of strategies used to achieve goal, if applicable:

In 2021-22, we prepared 6 candidates to be science education majors. One key strategy used to achieve this goal was to be highly proactive in advising the students who were seeking secondary education degrees in general science, biology, and/or earth science. We tried to ensure that they took their science education methods course together, in addition to being informally "cohorted" in other classes, as well. This helped greatly with program coherence for these students, and it appears to have led to the outcomes we hoped to see in terms of degree completion.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

See above.

6. Provide any additional comments, exceptions and explanations below:

No additional comments or explanations.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

It was our goal to add 10 prospective teachers of special education for 2021-22. Our goals in previous years have been too ambitious, and at the time of this writing, the University still faces additional shortfalls in enrollment due to the effects of the COVID-19 pandemic.

- 3. Did your program meet the goal?
 - Yes
 - No
- 4. Description of strategies used to achieve goal, if applicable:

We prepared 5 teachers of special education in 2021-22. It appears that our goal continues to be more ambitious than it should be.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The goals that we set need to be reduced to a more achievable level. Additionally, the Education Division and the Admissions Office need to coordinate their efforts to improve recruitment of candidates into the special education program.

Review Current Year's Goal (2022-23)
7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.
Yes No
8. Describe your goal.
Our goal for 2022-23 should be to prepare 5 teachers in the field of special education. In addition to the approach mentioned in #5, above, the Education Division should coordinate with the Office of Admissions to use the Office's new recruitment tools in a more targeted and specific manner, aimed at the recruitment of students interested in special education. The EPP should work in conjunction with the Admissions Office to take greater advantage of this new capability.
Set Next Year's Goal (2023-24)
9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.
Yes No
10. Describe your goal.
The Education Division's goal for 2023-24 should be to prepare 5 teachers in the filed of special education.

6. Provide any additional comments, exceptions and explanations below:

No additional comments.

SECTION II: ANNUAL GOALS

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

 If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

- 2. Describe your goal.
- 3. Did your program meet the goal?

Yes

No

- 4. Description of strategies used to achieve goal, if applicable:
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

Yes No

8. Describe your goal.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

Yes

No

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

SECTION	V/· LISE	OF TECHNOLOGY	

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THI	IS PAGE INCLUDES:
>>	Use of Technology

Use of Technology

1. F	Provide the following information about the use of technology in your teacher preparation program	Please note that choosing	'yes'	indicates that
)	our teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))			

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes
- b. use technology effectively to collect data to improve teaching and learning
 - Yes
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Every candidate must pass a required course dedicated to developing their skills in using a wide variety of state-of-the-art technological tools useful for teaching. Furthermore, these required courses include instruction in the application of Universal Design for Learning (UDL) in instructional design. Candidates must demonstrate effective use of instructional technology in their Teacher Work Sample, in unit plans created in methods courses, and in lessons taught during student teaching. Candidates use technology to collect, manage, and analyze data as part of their Teacher Work Sample during Student Teaching.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

HIS	PAG	F IN	CL U	DES:

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

The course content which would typically be found in a course on meeting the needs of exceptional learners is embedded in a wide range of courses taken by our general education candidates, and evidence of candidates' knowledge in this area is assessed in those classes. Strategies for working with children with special needs are thus embedded in a wide range of courses. Candidates receive extensive, integrated preparation throughout their programs of study with regard to the effective education of students with disabilities. Furthermore, candidates receive training in working with children with disabilities during their field placements, and during student teaching as well. Evidence is collected from supervising teachers' observations and in instructors' observations. With the implementation of two statewide surveys of completers and their employers, the Education Division now also collects evidence of completers' satisfaction with their preparation in this area, as well as evidence of employers' views of how well candidates have been prepared in this area.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Preparation in participating on an Individualized Education Program team is specifically taught to prospective general education teachers in EDU 382 Assessment, Curriculum, and Instruction. This course is a central component of the Professional Education Core, and is required of all elementary education, PreK - Grade 3, and K-12/secondary education majors.

c. Effectively teach students who are limited English proficient.

Preparation for working with students who have limited English proficiency (LEP) is embedded in all literacy education courses in the teacher education program. Candidates enrolled in the elementary education program and the PreK - Grade 3 degree program are required to take four literacy education courses. Candidates enrolled in K-12 and secondary education programs are required to take one literacy education course. Limited opportunities to work with students with LEP are provided to our candidates during field placements and student teaching, due to the demographics of our state. Our institution recognizes this as a weakness in our program.

- 2. Does your program prepare special education teachers?
 - Yes
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

The entire special education program of study is carefully designed to prepare prospective special education teachers to effectively teach students with disabilities. In particular, candidates are required to take EDSP 303 Teaching Students with Intellectual Disabilities, which focuses on working with students who have moderate to severe disabilities in intellectual, motor, communication, perceptual, and/or social skills. Furthermore, candidates must take EDSP 464 Methods of Instruction for Students with High Incidence Disabilities. This course prepares candidates to provide

accommodations and support for students with a wide range of mild to moderate disabilities. Candidates experience additional preparation in the areas of response to intervention, meeting the needs of students with emotional disturbances, and in applying principles of behaviorism to the teaching and learning cycle.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Candidates in the special education program receive specific training in writing Individualized Education Programs while enrolled in EDSP 281 Collaboration and Planning to Execute IEPs. This course also trains candidates to work effectively with all participants and stakeholders in an IEP team. During their field experiences and supervised teaching placements, candidates in the special education program have opportunities to participate in all steps related to the development of an IEP.

c. Effectively teach students who are limited English proficient.

Preparation for working with students who have limited English proficiency (LEP) is embedded in all literacy education courses in the teacher education program. Candidates enrolled in the elementary education program and in the PreK-Grade 3 degree program are required to take four literacy education courses. Candidates enrolled in K-12 and secondary education programs are required to take one literacy education course. Since the special education K-12 minor must be combined with one of the aforementioned majors, all special education candidates receive preparation in working with LEP students. During field experiences, limited opportunities to work with LEP students are provided to our candidates, due to the demographics of our state. Our institution recognizes this as a weakness in our program.

Contextual Information

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THIS PAGE INCLUDES:

>> Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

During its Fall 2015 Council for the Accreditation of Educator Preparation (CAEP) review, this EPP was assessed by the visiting team and was found to be comprehensive, consistent, and effective in its preparation of teacher candidates. It was the first EPP in the State of Montana to achieve accreditation through the then-newly-formed CAEP. Similar results are expected to be achieved by summer of 2023, when the EPP anticipates being re-accredited through CAEP. The EPP completed its site visit in Fall of 2022, and has also completed all of the subsequent steps, since then, related to re-accreditation. The EPP's program is noted in the state and throughout the region for producing high quality teachers. The EPP faculty collaborate extensively and continuously to improve programs. This EPP is known in the region for providing its teacher candidates with more time in K-12 schools, prior to student teaching, than other universities.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.
