REGISTRATION PROCESS

How to register for a class? Step-by-step.

GET AHEAD WITH DUAL ENROLLMENT

Dual Enrollment courses are an excellent opportunity to challenge yourself academically and prove your college readiness. Find out why Dual Enrollment is a popular choice for Montana high school students who are looking to save time and money towards a college degree.

115%

growth in dual enrollment since 2012

\$2,000+

saved in tuition at a two-year school for six dual enrollment credits

32%

of enrolled high school students received college credit in the 2021-2022 school year

One-Two-Free, the MUS Dual Enrollment program, offers free college classes for high school students. Choose from a wide range of first-year college level classes and earn credit towards your high school graduation requirements and your future college degree at the same time.

READY FOR DUAL ENROLLMENT?

HERE'S HOW TO GET STARTED

- 1** DETERMINE YOUR ELIGIBILITY
Montana students age 16-19 with junior or senior standing
- 2** CONTACT YOUR SCHOOL COUNSELOR
to learn about course options and get the required counselor approval
- 3** CONTACT A CAMPUS DUAL ENROLLMENT COORDINATOR
for help with the application process and advisement of courses that will work best for you

ANSC 100 Introduction to Animal Science

This course is an introductory animal science course which includes basic principles of animal genetics, nutrition, live animal evaluation, reproduction, and application to the production of beef and dairy cattle, sheep, swine, horses, and poultry.

CTE Ag, Food & Natural Resources Pathway

ARTZ 101 Art Fundamentals

This course is designed for non-art majors. Students will demonstrate the successful application of visual media to the creative and problem solving processes of identifying and communicating visual messages and personal expression and will examine art as an expression of culture and historical context and will do writing exercises in aesthetics and art criticism.

GE Humanities/Fine Arts

ARTZ 105 Visual Language: Drawing

This studio course introduces rendering skills through the use of a variety of drawing media, and the expressive, conceptual, and communication possibilities of drawing as an artistic medium. This course also examines art as an expression of culture and historical context and includes writing exercises in aesthetics and art criticism.

GE Humanities/Fine Arts

ARTZ 231 Ceramics I

This studio course introduces basic ceramic hand building, throwing, and glazing techniques, and the expressive, conceptual, and communication possibilities of ceramics as an artistic medium. This course also examines art as an expression of culture and historical context and includes writing exercises in aesthetics and art criticism.

GE Humanities/Fine Arts

ASTR 110 Introduction to Astronomy

An introductory course in the nature and structure of the universe including our solar system, stellar structure and evolution, galactic structure, and the large scale structure of the universe. Day and night observations will be used along with lab projects to familiarize students with the scientific methods used by astronomers.

Pre-req: Algebra I or higher.

GE Natural Sciences

CAPP 131 Basic Microsoft Office

In this hands on course, students will develop a working knowledge of word processing, spreadsheets, presentations, and database management software applications in relation to business. Students will understand and apply basic computer terminology, computer hardware, social and professional issues and other related topics. The course will be evaluated by hands on assignments and examinations.

CTE Business Management Pathway

CTE Finance Pathway

CTE Marketing Pathway

CHMY 121 Introduction to General Chemistry

This class is designed for non-science majors. Students will study the fundamental principles of chemistry in the context of real-world applications to atmospheric and water chemistry. Major fundamental topics covered include atomic structure, chemical bonding, chemical reactions, radiant energy, thermodynamics, acids and bases, and solutions. Most applications are cross-disciplinary with physics, biology, and/or earth sciences. Lab included. Pre-req: equivalent of M 095, Algebra II, high school chemistry recommended.

GE Natural Sciences

EDEC 247 Child & Adolescent Growth & Development

Students will examine, analyze, and apply research, theories, and issues concerning basic biosocial, cognitive, and psychosocial developmental stages from conception through childhood and adolescence. For integrated lab students use a variety of instruments to observe and interact with individual children as a way of integrating theory and practice. EDEC 248 fourty-five hour lab is integrated.

CTE Education Pathway

CTE Human Services Pathway

GE Social Science/History

EDU 201 Introduction to Education w Field Experience

The first formal course in the Teacher Education Program, this course provides an introduction to the field of education and the relationships between schools and society. Students begin to evaluate the reasons chosen to become a teacher and

the effects that decision will have on their lives. Students examine social, cultural, political, legal, economic, and historical issues within schools and how these issues impact professional educators. Students will complete a field experience in a school setting.

CTE Education Pathway

CTE Human Services Pathway

GDSN 230 Video Editing

In this project-based introductory course, students will gain the competencies to create video and audio projects. Skills developed in this course will be design of video and audio projects, capturing and editing video and audio, podcasts, communication through a digital media, and project management. Students will be evaluated on hands-on projects and examinations.

CTE Information Technology Pathway

M 121 College Algebra

This course explores a wide variety of functions, including polynomial, rational, exponential, and logarithmic functions. Students will be able to manipulate complicated expressions, understand the relationship between algebra and graphs, and apply their skills to a variety of applications. Pre-req: Math Proficiency Standard.

GE Mathematics

MART 214 Digital Publishing & Design

In this project-based course, students will gain competencies in communication skills in print and graphic design. Through hands-on activities, students will learn how to create interactive documents meant for digital publication. Students will be evaluated on hands-on projects and examinations.

CTE Business Management Pathway

CTE Information Technology Pathway

CTE Marketing Pathway

WRIT 101 College Writing I

Writing 101 serves as an overview of college-level writing—a course that provides students the opportunity to analyze the strengths and weaknesses of their writing process as it has developed during their K-12 education and to adapt that writing process to progressively more difficult writing tasks.

Pre-req: Writing Proficiency Standard.

GE Oral & Written Communication

ALTERNATIVE SCHOOL PARTNERS

ACT 149 Lifestyle Management

Students will learn a variety of physical fitness and wellness issues. Topics include general principles of exercise, adapt safe practices associated with physical fitness, how to build healthy lifestyles, stress management, prevention of injury, and understanding of addiction and substance abuse.

GE Elective

ARTZ 105 Visual Language: Drawing

This studio course introduces rendering skills through the use of a variety of drawing media, and the expressive, conceptual, and communication possibilities of drawing as an artistic medium. This course also examines art as an expression of culture and historical context and includes writing exercises in aesthetics and art criticism.

GE Humanities/Fine Arts

BGEN 105 Introduction to Business

Students will learn to identify stakeholders of business, define functions of core components of a business enterprise, demonstrate a working knowledge of basic business terms, concepts, and practices, demonstrate effective business communication, team problem solving, critical thinking, analysis and learning skills, and identify and assess academic and career opportunities related to business.

CTE Ag, Food, & Natural Resources Pathway

CTE Business Management Pathway

CTE Finance Pathway

CTE Information Technology Pathway

CTE Marketing Pathway

GE Social Science/History

CRWR 111 Beginning Poetry

Students will learn to articulate value judgements (orally and in writing) of their own poems and the poems of their peers, learn to revise their poems, locate their own work within one or more schools of contemporary or historical poetic styles, and risk innovation in their own work and assess their success in reaching new possibilities for author/reader connection.

GE Humanities/Fine Arts

ECP 100 First Aid & CPR

Students will complete certification requirements for adult and child CPR and AED, infant CPR, and basic first aid. Students must demonstrate hands-on techniques for each skill and will also be assessed through written examinations.

GE Elective

EDEC 247 Child & Adolescent Growth & Development

Students will examine, analyze, and apply research, theories, and issues concerning basic biosocial, cognitive, and psychosocial developmental stages from conception through childhood and adolescence. For integrated lab students use a variety of instruments to observe and interact with individual children as a way of integrating theory and practice. EDEC 248 forty-five hour lab is integrated.

CTE Education Pathway

CTE Human Services Pathway

GE Social Science/History

MYC 110 Leadership & Personal Development

Students will learn how the personal development of life skills such as cultural understanding, goal setting, time management, stress management and comprehensive fitness relate to leadership. Students will develop basic knowledge and comprehension of Army leadership dimensions, attributes, and core leader competencies and be introduced to competencies critical for effective leadership and communication.

MYCA Certificate of Technical Studies

MYC 120 Army Physical Fitness

Students will learn the basics of physical fitness concepts, different types of fitness activities, proper nutrition necessary for active individual's enhancement, and engage in basic fitness activities as a means to achieve overall body fitness.

MYCA Certificate of Technical Studies

MYC 130 Community & Civil Service

Students will develop an appreciation of the concept of service to the community, an understanding of skills necessary to evaluate the impact of service to others, and participate in volunteer service.

MYCA Certificate of Technical Studies

MONTANA WESTERN COURSES

AHMS 107 Career Essentials for Health Professions

Students will learn to work successfully in healthcare facilities and in their desired allied health care career. Topics include communication strategies, professional behaviors and attitudes, legal and ethical practices, and safe practices in healthcare.
CTE Health Professions Pathway

ARTH 160 Global Visual Culture

Explore visual arts, music, drama/theatre, and dance with some attention to literature and applied arts. Students learn art fundamentals and discuss such questions as: what are the arts; how are the arts created, what do arts communicate, and how do the arts reflect society?
GE Humanities/Fine Arts

CAPP 131 Basic Microsoft Office

Students will develop a working knowledge of word processing, spreadsheets, presentations, and database management software applications in relation to business.
CTE Business Management Pathway
CTE Finance Pathway
CTE Marketing Pathway

CAPP 251 Advanced Microsoft Office

Students will develop their competence using word processing, electronic spreadsheets, and database features. Students will also explore the integration of computer applications. Pre-req: CAPP 131.
CTE Business Management Pathway
CTE Finance Pathway
CTE Marketing Pathway

CTE 191 CTE: Introduction, Investigation, & Implementation

Students will learn the definitions of career and technical education, career clusters, and the opportunities found in these fields. Students will learn to prepare for higher education and lifelong learning.
CTE Career & Technical Education Pathway

EDEC 130 Health, Safety, & Nutrition in Early Childhood

Students will examine health and safety issues in early childhood settings including protection of children from injury and illness, promotion of their health development, nutrition and recognition and reporting of abuse and neglect.
CTE Education Pathway
CTE Human Services Pathway

EDEC 210 Meeting the Needs of Families

Students will explore the complex characteristics of families and communities through language, cultural values, ethnicity, socioeconomic conditions, family structure, relationships, childhood trauma, and community resources. Students will also practice techniques that encourage parent-teacher partnerships.
CTE Education Pathway
CTE Human Services Pathway

EDEC 247 Child & Adolescent Growth & Development

Students will research theories, and analyze issues concerning basic bio-social, cognitive, and psychosocial developmental stages. Students will use a variety of instruments to observe and interact with children as a way of integrating theory and practice.
CTE Education Pathway
CTE Human Services Pathway
GE Social Science/History

EDEC 249 Infant/Toddler Development & Group Care

Students will research theories, issues, developmental stages, and the application of these in relationship to the child from birth to 3 years. Students are required to complete a 45-hour lab component in a licensed/registered facility serving infants/toddlers.
CTE Education Pathway
CTE Human Services Pathway

EDU 201 Introduction to Education w Field Experience

This course provides an introduction to the field of education and the relationships between schools and society. Students examine social, cultural, political, legal, economic, and historical issues within schools and how these issues impact professional educators.
CTE Education Pathway
CTE Human Services Pathway

EDU 222 Educational Psychology

Candidates will explore, compare/contrast and analyze major psychological theories of development and apply them to teaching practices. They will study major progression of physical, social, emotional, and cognitive development in children. They will learn teaching approaches to accommodate diversity of all learners with regard to learning styles, varying intelligences, gender differences and cultural expectations.
CTE Education Pathway
CTE Human Services Pathway

HSTA 102 American History II

A survey of the important events and key issues involved in the emergence of the United States as a world power after the Civil War, and how that power has been exercised through the present day. Includes attention to the assimilation of foreign born immigrants, the roots of Civil Rights activism with respect to African-Americans, and efforts to deal with the "Indian problem."
GE Social Science/History

M 105 Contemporary Math

This course is designed to give students the skills required to understand and interpret quantitative information that they encounter in the news and in their studies, and to make numerically based decisions in their lives. Topics may include working with units and measurement, set theory, financial mathematics, and some concepts of statistics and probability. Pre-req: Math Proficiency Standard.
GE Mathematics

PHOT 154 Exploring Digital Photography

An introduction to the basic operation of DSLR cameras and editing and printing digital photographs. The class will also explore the expressive and conceptual possibilities of digital photography as an artistic medium, with additional focus on photography's influence on history and culture.
GE Humanities/Fine Arts

THTR 101 Introduction to Theatre

The basics of drama—including formal theatre, improvisational drama, and narrative film and television—are story, place, audience, and actor. Students actively explore the relationships between these elements in a lab setting, by creating scenes based on selections from literature, current and historical events, cuttings from film scripts, and more. They analyze the purposes of drama, and learn about a variety of "Western" as well as non-European traditions.
GE Humanities/Fine Arts

WRIT 101 College Writing I

Writing 101 serves as an overview of college-level writing—a course that provides students the opportunity to analyze the strengths and weaknesses of their writing process as it has developed during their K-12 education and to adapt that writing process to progressively more difficult writing tasks.
Pre-req: Writing Proficiency Standard.

MONTANA WESTERN DUAL ENROLLMENT REGISTRATION

STEP 1 Complete online **APPLICATION** process via link provided to you via email from your instructor.

<https://apply.umwestern.edu/register/dual-enrollment-application>

STEP 2 Fill out **REGISTRATION** form and **RELEASE of INFORMATION** forms.

- Access these forms via email confirmation after submitting **APPLICATION**, or
- Pick up hard copies of these forms from your instructor

NOTES for completing **REGISTRATION & RELEASE** forms:

- Print clearly
- Complete all sections
- Class details: See sample below, check with UMW DE Coordinator, Ryann Gibson, for course details
- Signatures
 - Student signature
 - Parent/Guardian Signature, if required

CRN	Course #	Course Title	Credits	Instructor
Leave blank, UMW will fill in	EDEC 247	Child & Adolescent Growth & Development	4	List last name of instructor

STEPS for CONCURRENT CREDIT COURSES

(taught in high school by high school instructor)

STEP 3 Submit completed **REGISTRATION & RELEASE** forms to the proper high school office/individual for final signature.

STEP 4 Your high school will submit **REGISTRATION & RELEASE** forms to UMW DE Coordinator, Ryann Gibson.

STEP 5 Check your email. Montana Western will send at least three (3) emails to students regarding registration, drop dates, and transcripts.
Remember to check you "junk" folder.

STEPS for COURSES taught by UMW

(taught by UMW instructors for dual credit or college-credit only)

STEP 3 Submit completed **REGISTRATION & RELEASE** forms to UMW DE Coordinator, Ryann Gibson.
High school signature NOT required for these courses.

STEP 4 Get your UMW ID number. Call 406.683.7537 for your number, Monday – Friday, 8 am – 5 pm. UMW ID numbers cannot be sent to non-UMW emails nor given to anyone other than student.

STEP 5 Complete Orientation for Distance & Online students. A link will be provided to you via email by Montana Western DE coordinator.

STEP 6 Check your email. UMW will send at least three (3) emails to students regarding registration, drop dates, and transcripts.
Remember to check you "junk" folder.
