

JOB OPPORTUNITY

World West Sire Services is a custom collection facility located 6 miles south of Laurel on the old highway 212, now Clarks River Road. We are lucky enough to work alongside some of the finest seedstock operations in the country as well as overseas. We have a fierce commitment to practicing excellent customer service and pride ourselves in creating opportunities for enthusiastic, hard-working individuals.

Laboratory/Collection Technician

We have positions available for a well-motivated Laboratory and/or Collection Technician to form part of our collection team and assist in all areas of the collection process and in the storage and distribution of bovine semen. Part time and full time positions available, which may include some evenings. Opportunities for both inside and outside work. We will provide on-site training and offer a competitive hourly rate. Some hours are flexible depending on the time of year, but applicants should bear in mind they may be required to work longer hours during breeding season.

Responsibilities may include:

- Preparation and assembly of collection equipment
- Disinfection of collection equipment
- Support of collection team during collection
- Commitment to team work AND ability to work independently
- Assist in semen processing and storage
- Prepare orders ready for shipment
- Monitor incoming and outgoing shipper tanks
- Tank inventory
- Understand and uphold bio-security procedures
- Follow strict hygiene protocols, keep all laboratory areas clean and tidy
- Assist in some office tasks

Education/Experience/Skills:

- High School Diploma or higher
- Basic computer skills - Ability to use Word and Excel (Lab technician)
- Interest in agriculture or animal science preferred
- Ability to lift 50lbs
- Ability to stand for long periods of time and withstand a variety of temperatures
- Excellent organizational skills and dedication to keeping areas clean and tidy
- Positive attitude and good at problem-solving
